

Success stories

> Stephen

Stephen's future is looking brighter as MJP Employment Services' first self employed small business owner.

Stephen had been registered with MJP Employment Services for less than six months when Minda Independent Support Services (ISS) came looking for someone to take on cleaning contracts for community homes.

It was a case of the perfect opportunity at the right time. Stephen was approached due to his enthusiasm, good work ethic and willingness to give anything a go. He now runs his own successful cleaning business.

Stephen took all the necessary steps to make this business venture possible, with training and support from MJP staff. He applied for his own ABN, a requirement as a business owner, and purchased his cleaning equipment.

Stephen's clients have been impressed with his standard of work, and his customer base continues to go from strength to strength. ISS staff report, "He's wonderful and has been a fantastic addition to our service."

Stephen has been equally pleased with the venture. "It feels right for me, I can plan my schedule and the work is very flexible," he told MJP staff.
